Everest Flagpole

Our Everest Flag Poles are constructed with aircraft grade anodized aluminum. The base tanks are durable ABS plastic and can be filled with up to 18 gallons of water for maximum stability with winds up to 40 mph. The telescopic pole can easily be raised by one person.

Red Graphics Department uses the latest technology in printing and print media to bring you the best solutions for your print needs!

The base tanks are durable ABS plastic and can be filled with up to 18 gallons of water for maximum stability with winds up to 40 mph. The Everest Flagpole fits in two practical and easy to carry softbags.
