

*Exhibition innovation with style and real value*

**Milano offers:**

- Milano's modular system blends components of other systems into one portable solution.
- Kits feature bright, new designs that are quick and easy to assemble.
- Compact and portable, Milano kits reduce storage, transportation, drayage and labor expenses.

**Milano**

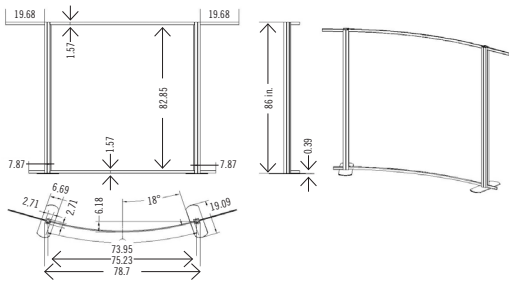

Milano is an exhibition innovation. By blending the individual strengths of diverse systems pop-up, aluminum extrusion and tension fabric into one portable design solution, Milano delivers style and real value.

Fresh, contemporary designs have been packed into kits to expedite delivery in as little as 7-8 business days.

Milano's modular components make it easy to select the best fit for your functional, aesthetic and budgetary needs.

Milano packs and ships more efficiently, weighs less and sets up faster so you'll save in storage, transportation, drayage and labor.
