

Ultra light, more durable - less expensive!

Accessories:

Plastic transport case with wheels and case to table conversion kit. Set of 2 200W halogen lights in a bag including 2 spare bulbs.

Specification:

Available in 6' table top and 6', 8' and 10' back drops, curved or flat.

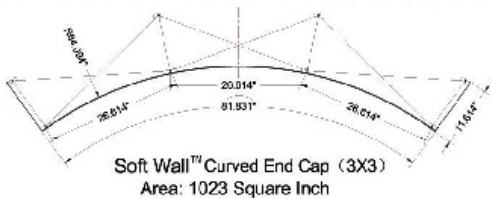

Soft Wall fabric Pop-Up display

Soft Wall is a vibrant, ultra lightweight display featuring a single tension fabric graphic structure. Soft Wall graphics are lighter, more durable and less expensive than traditional graphics.

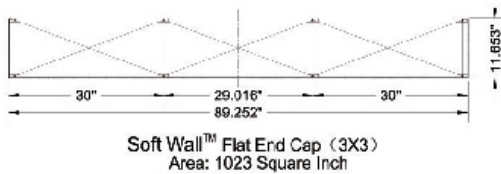

Features:

Choose single or double sided presentations with or without end caps. Set up is fast because the graphic travels pre-installed on the frame. Just pop it up open and you're ready to show. No need to remove the graphics between uses; just collapse the whole display into a compact bundle that packs to ship in a lightweight carry bag.

Soft Wall Curved Frame

Soft Wall Straight Frame

- ! No need to remove the graphics between uses; just collapse the whole display into a compact bundle that packs to ship in a
- lightweight carry bag.
